152nd Airlift Wing Public Affairs

The 152nd Airlift Wing held a training exercise, Operation Chemical Blackjack, March 5 to 7, 2021, at the Nevada Air National Guard base, Reno, Nev. The 72-hour exercise was designed to ensure the Nevada Air National Guard is properly prepared to protect, respond to, and recover from chemical, biological, radiological and nuclear threats.

"This exercise was developed to increase proficiency in wearing chemical protective over-garment; as well as providing Airmen an opportunity to accomplish mission essential tasks in a simulated chemically contaminated environment," said Master Sgt. Timothy Hill from the emergency management section. He continued, "Maintaining this proficiency is essential in ensuring readiness, force survivability and mission continuation."

Those who participated in the exercise included a multitude of Air National Guardsmen from across the base.

"As inspectors general, it's our job to ensure we are exercising all of our Airmen who may be required to answer the Nation's call at any moment in time," said Master Sgt. Christa Morter from the inspections section of IG. "Participation in this recurring exercise is essential in the IG's ability to

## NOTAM: April is Sexual Assault Awareness and Prevention Month

By Col. Jacob Hammons, Commander, 152nd Airlift Wing

High Rollers, April is Sexual Assault Awareness and Prevention Month. This year's theme is titled "protecting our people protects our mission". The Nevada National Guard has implemented a Zero Tolerance campaign for sexual assault.

Throughout April, the Nevada National Guard will hold events highlighting ways we can improve our awareness around this scourge that affects all of us -- a scourge that has seen a recent uptick in our nation's military.

We are hosting a SAAPM Miles Challenge throughout the month of April. Support awareness and education on sexual assault prevention by logging miles and tracking your progress by posting to the "SAAPM Miles Challenge" event on the @SAPRNevada Facebook page.

Denim Day 2021 will take place April 28. Denim Day is a campaign on a Wednesday in April in honor of Sexual Assault Awareness Month. The campaign began after a ruling in the Italian Supreme Court where a rape conviction was overturned because the justices felt that since the victim was wearing tight jeans she must have helped the person who raped her remove her jeans, thereby implying consent. The following day, the women in the Italian Parliament came to work wearing jeans in solidarity with the victim. Denim Day asks community members, elected officials, businesses and students to make a social statement with their fashion statement by wearing jeans on this day as a visible means of protest against the misconceptions that surround sexual violence.

Sexual harassment and sexual assault have no place in the 152nd Airlift Wing. As leaders, we are entrusted with our nation's sons and daughters and I take that responsibility very seriously. We must provide each of you a safe and respectful environment to thrive in and reach your full potential. I will continue to work every day to ensure we eradicate harassment and assault so that we all feel safe and have a sense of belonging here at the base.

Capt. Curry and Senior Airman Newberry utilizing the Multi-Capable Airman Concept during Green Flag 21-05 at Little Rock, Ark. March 14, 2021.

Early in March of 2021, the 192nd Airlift Squadron sent a C-130H, aircrew, and support personnel from the 152nd Operations Support Squadron and the 152nd Maintenance Group to participate in Green Flag 21-05. The intent of this exercise is to integrate a variety of joint assets for a training rotation to help hone the warfighting skills of all units involved.

For the flying crews, Green Flag challenges aircrews with realistic, rigorous, and intense training environment that replicates the irregular warfare conditions found in a typical Area of Responsibility. This includes complex inter-fly formation missions with other airframes/services, threat avoidance, on-call airdrops, Survival Evasion, Resistance and Escape scenarios, and rigid timelines, all within the dynamic Joint Readiness Training Center
